

Galapagos Islands

Spend a week cruising the Galapagos Islands!

Board the Silver Galapagos February 4, 2017 as it cruises the islands in search of nature's wonders. Some of the expedition highlights include walking across lava fields, exploring tidal pools, watching penguins on rocky shores, swimming with green sea turtles and manta rays, watching for flightless Cormorants, read cave inscriptions from explorers in the 1800s, and much more! Have your camera ready at all times, because you never know when you'll get that perfect shot of wild flamingos or a sea lion colony. From learning about the protection efforts of the Fausto Llerena Breeding Center to snorkeling in Champion Islet, this vacation will not disappoint.
